Quick Installation Guide Lens UPGRADE PACK

Constituent Parts of Delivery:
1x Lens; 1x Quick Installation Guide

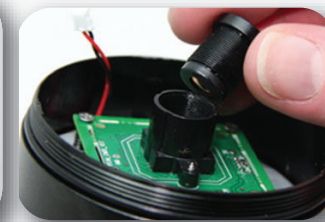

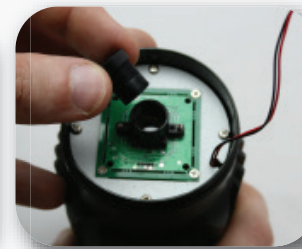

Hereby INSTAR Deutschland GmbH ensures that you will not lose your warranty by installing this additional lens.
For any damages caused by the user by faulty installation is excluded of the warranty.

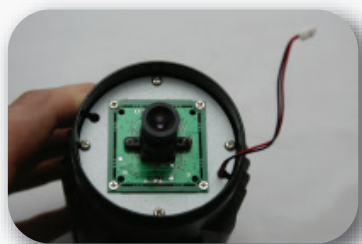

Step 1: Remove the top cover by gently pulling it in the direction of the lens. Hold the back of the camera and remove the front cover by turning counter clockwise.

Step 2: Remove the foam shield, take the infrared board out of the casing and unplug it.

Step 3: Now substitute the original with your new lens.

Step 4: Now Reconnect the camera to your network, access the live video with your internet browser and adjust the focus by gently turning the lens.

Step 5: Replug the IR-LED board, put it back into the casing and remount the foam shield.

Step 6: Now close the camera case by mounting the front glass and reattach the top cover.
